Polycyclic Aromatic Compounds

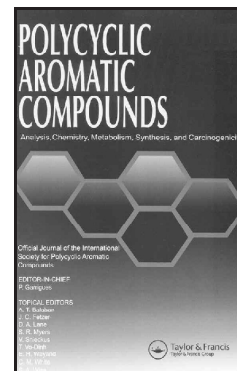

The official publication of the International Society for Polycyclic Aromatic Compounds

Editor:

Philippe Garrigues,

Environmental & Toxicological Chemistry

Universite de Bordeaux I, France

Polycyclic Aromatic Compounds presents an interdisciplinary forum for all aspects of research related to polycyclic aromatic compounds (PAC). Featuring original, full-length papers and short communications of urgent interest, as well as timely review articles, this journal provides complete coverage of the critical field.

Topics covered by the journal include: fundamental research in chemistry and physics, thermodynamics, spectroscopy, analytical methods, and biology.

Also included is a special section devoted to information of general interest to the PAC research community, such as book reviews, summaries of current research, and meeting announcements.

Members of the International Society for Polycyclic Aromatic Compounds (ISPAC) receive a special subscription rate of US\$125. For inquiries regarding ISPAC membership, go to: www.ispac.org.

To access a **FREE** fully-searchable online sample copy, visit: www.tandf.co.uk/journals/GPOL.

Online Services Available from Taylor & Francis

informaworld™: The online platform for Taylor & Francis e-products.

To find out more, go to: www.informaworld.com.

informaworld Alerts: A free email contents alerting service designed to deliver tables of contents for over 1,100 Taylor & Francis journals of your choice in advance of the printed version. Registering for the service is simple and you can now to receive alerts by main category, subcategory, title, or keyword. For more information visit: www.informaworld.com/alerts.

CrossRef: An international active reference linking service. Visit www.crossref.org for more information.

Register your email address at www.tandf.co.uk/eupdates to receive information on books, journals, and other news within your areas of interest.
