HOW TO GET REGISTERED

A. Poster Exhibition and Networking-Session

The poster exhibition and networking session is addressed to the university's internal public, in particular researchers (from professors to PIs to PhD students) from the AI field. Interested persons are asked to register until March 1 via https://indico.uni-muenster.de/e/aiexpo2024 .

B. Keynotes

The keynotes are public, no registration is required.

C. Call for Posters

We invite all scientists at Münster University who are conducting research in the field of AI, using AI methods in their research, or are planning to apply such methods to present their working group or research projects on a poster.

Posters can be registered until Feb 2 at latest via https://indico.uni-muenster.de/e/aiexpo2024 . For the Book of Abstracts - and later the AI map - in addition to the names and contact details of the responsible persons a short description of the activities of the working group or research projects (max. 150 words) will be requested when registering.

Note: As space and the number of exhibitions stands in the foyer are limited, we kindly ask you to present your research activities in a bundled form, i.e., if possible, summarize individual research projects thematically or present the activities of your working group on one single poster.

You can print out your poster (DIN A0, portrait format, preferably in English) and deliver it to the foyer by 12.30 p.m. on the morning of the event. We will send you further details by e-mail in due course.

If you have any questions, please contact katrin.schmietendorf@uni-muenster.de.
