

Otto Creutzfeldt Center | Retreat 2023 | June 1st

Lecture Hall LEO 21 | Leonardo Campus 17

Time	Title	Presenter
10:00	<i>Welcome Address</i>	
10:15	Learning from quantified prediction errors: Episodic memory flexibility	Marius Boeltzig
10:45	Learning from quantified episodic prediction errors: Individual biases in gist revision	Nina Liedtke
11:15	<i>Coffee Break</i>	
11:45	Look what I will do, fMRI & eye tracking during action perception	Rosari Naveena Selvan
12:15	<i>Lunch Break (e.g. Mensa)</i>	
13:30	Non-invasive excitatory stimulation of the ventromedial prefrontal cortex positively modulates our self-perception	Alejandro Espino
14:00	Frequency-specific brain dynamics during speech perception	Nikolas Chalas
14:30	How transcranial direct current stimulation of the ventromedial prefrontal cortex affects cognitive biases and reward processing - behavioral and neuroimaging evidence	Thomas Kroker
15:00	<i>Coffee Break</i>	
15:15	Keynote: Data Driven Modeling of Complex Dynamical Systems	Dr. Oliver Kamps, Center for Nonlinear Science
16:30	<i>Sports and Recreation + BBQ</i>	

Otto Creutzfeldt Center | Retreat 2023 | June 1st
