

OCC Retreat 2024

May 23rd | Institute of Psychology | Room 129

Time	Titel	Presenter
9:00	Welcome Address	
9:15	Quantifying episodic prediction errors: an fMRI study on memory stability and new learning	Nina Liedke
9:45	The effect of prediction errors on memory representations of naturalistic episodes	Marius Boeltzig
10:15	Neural representation of updating predictions in a complex repertoire of actions	Rosari Naveena Selvan
10:45	Coffee Break	
11:15	Biomarkers of ictogenesis in Absence seizures: The role of 5-9 Hz oscillations	Eleni Nikalexi
11:45	Differential auditory mismatch responses depending on awareness and task relevance	Jana Harenbrock
12:15	Behavioral and Magnetoencephalographic Correlates of Auditory-Cue Fear Generalization	Riccardo Bianco
12:45	Lunch Break (independently, eg Mensa)	
13:45	Body-brain coupling: from multisensory perception to clinical applications	Martina Saltafossi
14:15	Unravelling the Interplay between Cortical Structure, Function, and Age using Large-Scale Time-Series Analysis	Jana Fehring
14:45	Connectivity in the visuo-motor network during Smooth Pursuit	Yvonne Buschermöhle
15:15	Sports and Recreation + Cake
