

IRTG MINISYMPOSIUM 2011

Friday, November 11th 2011

Westfälische Wilhelms-Universität Münster, Organische/Anorganische Chemie,
Wilhelm-Klemm-Str. 6, Lecture hall C2

- 09:30-09:50** **Opening addresses**
- 09:50-10:50** **Prof. Iwao Ojima**
(State University of New York, Stony Brooks, USA)
“Synthetic Organic Chemistry at the Biomedical Interface”
- 10:50-11:10** **Coffee Break**
- 11:10-12:10** **Prof. Sijbren Otto**
(University of Groningen, the Netherlands)
“Systems Chemistry: From Recognition to Self-Replication in Dynamic Molecular Networks”
- 12:10-13:30** **Lunch Break**
- 13:30-14:30** **Prof. Paul Knochel**
(Ludwig Maximilians-University of Munich, Germany)
“Preparation of Polyfunctionalized Organometallics and Stereoselective Cross-Couplings “
- 14:30-15:30** **Prof. Seth Cohen**
(University of California, USA)
“Bioinorganic Drug Targets - Metalloprotein Inhibitors and Proinhibitors”
- 15:30-16:30** **Poster session and Coffee Break**
- 16:30-17:30** **Prof. Francois Gabbai**
(Texas A&M University, College Station, Texas, USA)
“Lewis Acidic Properties of Heavy Pnictogenium and Chalcogeniumions”
- 17:30** **Closing remarks**
- 18:30** **Joint dinner**
