Studying, caring for a child & often working part-time: A heroic act or an exclusive entrepreneurship of multi-tasking geniuses?

The Social Affairs Office supports student parents & those who would like to become ones with information and services.

We help you successfully combine study & parenthood and offer counseling on the following topics:

- o "Baby fever" and pregnancy
- o Compatibility issues of studying & child-caring
- o Finances
- o Accommodation
- o Child-care facilities
- o Support with personal issues & concerns
- o Special questions of international parents
- o Special needs of student single parents
- o Support Resources: Children's Menu-cards, Free Meals, Loan Funds, kids clothing, toys & gear, household items & kitchen supplies.

The family tutor engages and supports student parents on the spot at the dorm, and organizes cultural and pass-time activities for student families in an international climate.
