

Annual WorkShop 24.09.2008

„Container Molecules, Macrocycles and Related Compounds“

Final Program

- 09.15 Fabian Conrady
“Bridged bis- and tetrakis-(benzimidazol-2-ylidene)-ligands in transition metal complexes”
- 9.30 Oliver Kaufhold
“Macrocyclic ligands – mixed N-heterocyclic carbene / phosphine composition“
- 9.45 Birgit Birkmann
“Manifold Supramolecular Architectures Based on Benzene-o-dithiol Ligands Derived From Metal-directed Spontaneous Self-assembly Reactions”
- 10.00 Johannes Dömer
“S-S/N-N Ligands and Their Use in Metallosupramolecular Chemistry”
- 10.15 Ulf Strasser
“Poly-Lewis Acids Based on Tetraalkynylcalix[4]aren”
- 10.30 Nina Wichner
“Metal Nanoclusters in Sol-Gel Silica Cages”
- 10.45 **Coffee Break**
- 11.15 Sandra Fibikar
“Structural Modification of Inorganic Nanocontainers: Towards Alternative MRI probes”
- 11.30 Gabriele dePaoli
“Carbene-based transition metal complexes: novel supramolecular assemblies“
- 11.45 Dr. Christopher A. Russell
“Playing with Isolobal Substitutions: Heterocycles or Cages?”

- 12.45 **Lunch**
- 14.30 Andrej Vinogradov
"Investigations into Hydroalumination of Oligoalkynes"
- 14.45 Sarina Zemke
"New aspects of hydrogallation reactions"
- 15.00 Hauke Westenberg
"Hydroalumination of alkynyl phosphines - towards new functionalities"
- 15.15 Henrik Bock
"Reactions of digallan with functionalised carboxylic acids"
- 15.30 Ines Tiesmeyer
"Stabilities of hydroalumination products"
- 15.45 **Coffee Break**
- 16.15 Wannes Weymiens , Chris Slootweg, Koop Lammertsma
"Novel Bis-Azido Phospholes for Easily Accessible pi-Conjugated Frameworks"
- 16.30 Joris Berding, Lies Bouwman, Jan Reedijk
„Novel Bidentate Bis(benzimidazolin-2-ylidene)Nickel Complexes“
- 16.45 Prof. Dr. Martin Bröring
"Chemical Communications - How molecules talk"
- 17.45 beer and pretzel reception
