The Faculty of Mathematics and Physics invites applications for a

University Professorship in Analysis
(Salary Scale W 2 BBesO)

to be appointed as soon as possible.

Candidates should be internationally recognized in analysis, e.g. in the area of operator algebras, partial differential equations or harmonic analysis. The research profile is expected to complement the mathematical topics represented at the institute and the faculty and to further cooperation.

On the position it will be the responsibility to represent the field both in research and teaching; this includes an adequate participation in the undergraduate mathematics education of students of the Faculty of Mathematics and Physics as well as of students of other faculties.

The responsibilities and required qualification for employment are specified in the Higher Education Act of Niedersachsen (NHG , § 25).

Leibniz Universität Hannover is a member university of Niedersachsen Institutes of Technology (NTH), to which the vacant professorship is attached. Applicants are therefore expected to be prepared to participate in coordinated interdisciplinary programmes and to be involved in the cooperation of the technically-oriented universities in Niedersachsen in research and teaching, especially within the framework of NTH. For more information visit http://www.en.nth-online.org.

Part-time employment is possible.

As an equal opportunities employer, Leibniz Universität Hannover intends to promote women in the context of statutory requirements. For this reason suitably qualified women are specifically invited to apply. Equally qualified applicants with disabilities will be given preferential treatment. Applications from international candidates are highly encouraged.

Leibniz Universität Hannover places great value on an international orientation of teaching and research, with a special emphasis on the intensive supervision and support of students and involvement of the university in the Region Hannover and in Niedersachsen. In order to promote this, the faculty expects the successful candidate to centre his/her life in the Region Hannover.
Applicants 50 years old or older at the date of appointment and who do not hold a civil servant status qualify only for employee status.

For further information, please contact Prof. Dr. Elmar Schrohe, Tel. +49-511-762-3515, e-mail: schrohe@math.uni-hannover.de, who will be pleased to assist.

Please send your application with the usual documents and papers by 3 May 2013 to
