

# Master Meet and Greet

All you need to know about the Master of Science Mathematics

---

Peter Oehme

29th March 2022

Fachschaft Mathematik und Informatik

# Overview

1	<b>Broadening Courses</b> (9+9 CP)		<b>Specialisation C, Part 1 &amp; 2 (18CP)</b>  or <b>Minor Subject</b> (18CP)	<b>Personal Enrichment</b> (6 CP)
2	<b>Specialisation A, Part 1 (9 CP)</b>	<b>Specialisation B, Part 1 (9 CP)</b>		
3	<b>Specialisation A, Part 2 (9 CP)</b>	<b>Specialisation B, Part 2 (9 CP)</b>	<b>Specialisation Supplement and Research Skills</b> (6+6 CP)	
4	<b>Master's Thesis</b> (30 CP)			

# Broadening Courses

- Broaden your mathematical horizon
- Prepare you for a specialisation
- Consist of a lecture with an exercise each
- You have to complete two lectures and may complete up to three

You can find the available Broadening courses in the online lecture catalog (HIS LSF). Lectures listed as Specialisations are also often viable for this module.
