ERASMUS+ cooperations at our faculty – ERASMUS+ faculty coordinators

ERASMUS+ coordinators at our faculty

The following people are responsible for the cooperations at our faculty and can answer a lot of organizational questions

Mathematics Prof. Dr. Caterina Zeppieri

Computer Science Prof. Dr. Ralph Holz

Recognition of credits

Your contact person is the corresponding Academic Study Advisor

Mathematics Bachelor of Science Prof. Dr. Johannes Ebert

Mathematics Master of Science Prof. Dr. Martin Hils

Mathematics Two-subject bachelor and others Prof. Dr. Michael Joachim

Computer Science Bachelor (all) Prof. Dr. Jan Vahrenhold

Computer Science Master (all) Prof. Dr. Tanya Braun

General Academic Study Advisors Dr. Angela Holtmann und Olga Varghese

Partner universities without faculty affiliation

Partner universities without faculty affiliation

In addition to the partner universities of our faculty, there are also **partner universities of the university without faculty affiliation**. An overview of these **42 additional partner universities in 13 different countries** can be found here by selecting ”Institutions without faculty affiliation” under Faculty.

These include universities from Australia, Brazil, France, Gabon, Japan, Canada, Mexico, the Netherlands, Norway, Taiwan, Turkey, and the USA.

Application

Going abroad with ERASMUS+

Documents for the application

Going abroad with ERASMUS+

Documents for the application

1. Letter of motivation

Going abroad with ERASMUS+

Documents for the application

1. Letter of motivation
    - up to three justified choices of university

Further considerations

- At least one completed year of study before beginning the stay abroad

Further considerations

- At least one completed year of study before beginning the stay abroad
- Sound basic language skills in the language of instruction

Further considerations

- At least one completed year of study before beginning the stay abroad
- Sound basic language skills in the language of instruction
  - usually at least a B1-level, exceptions possible

Further considerations

- At least one completed year of study before beginning the stay abroad
- Sound basic language skills in the language of instruction
  - usually at least a B1-level, exceptions possible
- Possibly problematic: the summer terms in most host universities start considerably sooner than ours

Further considerations

- At least one completed year of study before beginning the stay abroad
- Sound basic language skills in the language of instruction
  - usually at least a B1-level, exceptions possible
- Possibly problematic: the summer terms in most host universities start considerably sooner than ours
- Inform yourself about possible host universities, their language of instruction, and offered courses

Application deadline

The deadline for the application is the 15th of December.

Applications for the summer term are also to be handed in until this date.

Miscellaneous

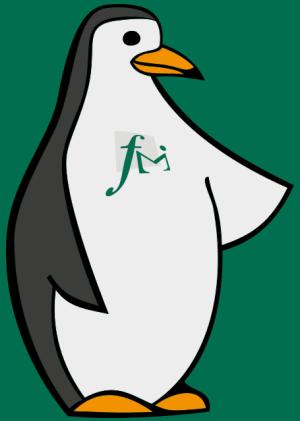

Teaching degree internships in schools with the ZLB

uni-muenster.de/ZLB/studium_lehramt/bachelor/auslandsaufenthalt.html

Mathematics Münster Study Abroad Scholarships

- Mathematics Münster (”the cluster”) offers up to four scholarships for MSc Mathematics students in their 2nd year
- For periods from 1 to 6 months
- Students may attend courses at the host institution or work on their master’s thesis
- Deadlines: 15 May and 15 November (EARLIER than ERASMUS+ deadline!)
- More information: www.uni-muenster.de/MathematicsMuenster/de/careers/programmes/studyabroad.shtml

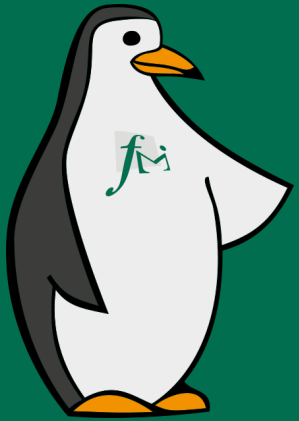

Questions?

Expert panel

Expert panel in SRO

- Questions can be asked to students who have already been abroad with ERASMUS+
- Several represented countries

Thanks a lot to the lecturers!
