Highly Cited Researchers 37 Scientists Citation Rankings

Near Real-Time Data • Ranking Update: 11 February 2026

See how widely and consistently research is cited with real-time citation rankings. Covering **2.6 million** scientists, this list evaluates both **total and last 5 years' citation counts** to measure scientific influence and highlight Highly Cited Researchers. Built on transparency, it also addresses unethical practices and encourages reporting of violations. Compare results across **13 fields and 221 disciplines**.
