

Publications of the CiM-IMPRS Program

Listed below are publications of CiM-IMPRS students from 2009 to March 2025 that resulted from their work within the graduate school, sorted by year. Only published contributions are listed. In total, CiM-IMPRS students contributed to **557 publications** of which **296** were **first author** publications. To ease identification of individual contributions, **student names** are highlighted (**bold**) and faculty members underlined. Equal contributions of first authors are marked by an asterix (*). **91 collaborative** studies between different institutions/departments within CiM-IMPRS are marked with (C). Collaborations with institutions outside of the program are not marked. **Patents** are shown at the end of this list.

2009

Callies, C., Schön, P., Liashkovich, I., Stock, C., Kusche-Vihrog, K., **Fels, J.**, Sträter, A.S., and Oberleithner, H. (2009). Simultaneous mechanical stiffness and electrical potential measurements of living vascular endothelial cells using combined atomic force and epifluorescence microscopy. Nanotechnology 20, 175104.

Oberleithner, H., **Callies, C.**, Kusche-Vihrog, K., Schillers, H., Shahin, V., Riethmüller, C., Macgregor, G.A., and de Wardener, H.E. (2009). Potassium softens vascular endothelium and increases nitric oxide release. Proc Natl Acad Sci USA 106, 2829-2834.

2010
