

DIGITAL FELLOW LECTURES @EViR

THE CONCEPT

In this digital lecture series, the fellows of the Käte Hamburger Kolleg “Einheit und Vielfalt im Recht (EViR) / Legal Unity and Pluralism” present their current research projects. They examine phenomena of legal pluralism such as clashing norms, competing courts, or extrajudicial conflict resolution strategies. The projects cover different time periods from the early Middle Ages to present day and deal with various places from Europe to the Middle East and South America. In highlighting multiple aspects of legal pluralism, the lecture series provides insights into an exciting field of research at the intersection of history, anthropology, and law.
