## CONSOLIDATION OF LAW

The workshop aim is to examine one way of dealing with legal plurality: law consolidation, that is any attempt to order a multi-normative environment of an ancient polity. We want to explore the top down approach (attempts of consolidation pursued by the state or state-like authority: codifications, compilation, production of ordering principles), and the bottom-up pursuits of the ordinary users of law (informal collections of similar cases, handbook production, or scribal/notarial tradition). The method is a source-centred analysis, thus the invited speakers – researching broadly comprehended ancient civilisations – shall present sources and invite the audience to discuss them.

## KÄTE HAMBURGER KOLLEG

The Käte Hamburger Kolleg “Einheit und Vielfalt im Recht | Legal Unity and Pluralism” (EViR) at the University of Münster has been funded by the Federal Ministry of Education and Research (BMBF) since 2021. Fellows from all over the world, together with scholars from Münster, examine the dynamic tension between legal unity and pluralism from antiquity to the present. This is the first attempt to systematically investigate the phenomenon in its entire historical depth and across disciplinary boundaries. In addition to (legal) history, many other disciplines such as ethnology and sociology, as well as literature and religious studies, are involved in the Kolleg.
