Universität Münster

C IT

Quick guide to using video conference bar and display with Zoom:

**Step 1:** Turn on the display and the video conference bar via the power strip.

Step 2: Connect your laptop with the HDMI cable and the USB cable.

**Step 3:** Start the Zoom software on your laptop.

Step 4: Now select the camera via the camera symbol in an already started Zoom session as follows:

Camera = **Yealink UVC40 Camera**

If necessary, set HD:
Zoom Settings -> Video -> Camera -> HD

Step 5: For the audio settings, select the following via the microphone symbol in an already started Zoom session:

Microphone = **hands-free phone with echo cancellation (Yealink UVC40 Audio)**

Lautsprecher = **hands-free phone with echo cancellation (Yealink UVC40 Audio)**
