Buildings 2024

23-26 September 2024 | Münster, Germany

The Buildings conference is an annual meeting and in 2024 we will celebrate its 30th edition. The conference will be held in honor of Linus Kramer's 60th birthday. Some of the main topics of the conference are: generalized polygons and related geometries, buildings of higher rank, geometries and groups of Lie-type, Tits magic square, algebraic varieties related to incidence geometries, automorphism groups of incidence geometries, and geometric group actions, algebraic groups and Kac-Moody groups, topological aspects of buildings and related geometries.
