In Honor of Bernhard Riemann's 200th birthday

Opening Conference: 2nd Funding Period of Mathematics Münster

16 – 18 September 2026 | University of Münster, Germany

The Cluster of Excellence *Mathematics Münster* has recently obtained continued funding for its second term, and the upcoming conference will celebrate this achievement as well as the 200th birthday of Bernhard Riemann. Much like the cluster bridges the full spectrum of mathematics, from pure to applied, the conference aims to unite prominent international mathematicians, cluster researchers, and early career scholars. This dynamic event will offer a platform for lively exchange across diverse areas of mathematics. We look forward to inspiring interdisciplinary dialogue and collaboration, showcasing both external expertise and the innovation emerging from within our cluster.

Speakers

Rima Alaifari (Aachen)
Christian Bär (Potsdam)
Robert Burklund (Copenhagen)
Steffen Dereich (Münster)
Cristiana De Filippis (Parma)
Allen Fang (Münster)
Christophe Garban (Lyon)
Ursula Hamenstädt (Bonn)
David Kerr (Münster)
Julian Kranz (Münster)

Luzie Kupffer (Münster)
Jonathan Luk (Stanford)
Lucas Mann (Münster)
Sophie Mildenerger (Münster)
Volodymyr Nekrashevych (Texas A&M)
Vincent Pilloni (Paris)
Maxim Ramzi (Münster)
Dima Sinapova (Rutgers)
Katrin Tent (Münster)
Bálint Virág (Toronto)

Scientific Committee (Münster)

Shirly Geffen	Mario Ohlberger
Gustav Holzegel	Eva Viehmann
Franziska Jahnke	Hendrik Weber
Chiranjib Mukherjee	Burkhard Wilking
Thomas Nikolaus	Caterina Zeppieri
