

Mathematics Münster Conference Programme

Schedule 2026

27 January

2nd Münster – Imperial Day in PDEs

23 – 27 March

Geometry, Holonomy and Structures with Torsion (GHOST)

18 April

Rapoport-Zink spaces and p-adic uniformisation (YMCN)

30 April

Groups and Geometry in North Rhine-Westphalia

20 – 24 July

M²A²-2 : Mathematical Modeling and Analysis-2

31 August – 4 September

Young Geometers Meeting (YMCN)

7 – 11 September

Interactions between Operator Algebras, K-theory and Homotopy Theory

16 – 18 September

Opening Conference: 2nd Funding Period of Mathematics Münster

21 – 25 September

Nonlinear Systems with Noise

30 September – 2 October

Stochastic Geometry and Point Processes in Non-Euclidean Spaces

5 – 9 Oktober

Spin Geometry and Index Theory: Bridging Analysis, Geometry and Topology

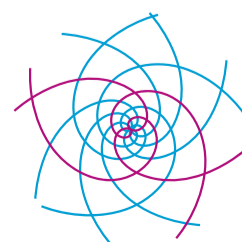

11 – 13 November

Mathematical Research Data Initiative (MaRDI)
