# Young Geometers Meeting

31 August – 4 September 2026 | University of Münster, Germany

The Young Geometers meeting aims at bridging subareas of Differential Geometry by bringing together early career researchers working in geometry and related fields. The focus of the conference is therefore to provide networking opportunities for advanced master students, PhD Students and early career PostDocs.

During the week there will be up to three mini courses in different areas of Differential geometry. Additionally there will be talks contributed by the participants in the afternoon.

## Mini-Course Speakers

**Martin Kerin**, Durham University

**Maxwell Stolarski**, University of Warwick

**Zoe Wyatt**, University of Cambridge

## Organisers

Jakob Dittmer, University of Münster

Niels Møller, University of Copenhagen

Jan Nienhaus, UCLA

Artemis Vogiatzi, University of Copenhagen

Dennis Wulle, University of Münster
