

Dear applicants,

We are very pleased that you are interested in the master's degree programme Mathematics at the Faculty of Mathematics and Computer Science at the University of Münster.

We kindly ask you to complete the following form and attach it to your application. Please also note that this form does not replace the forms that might be required by the University of Münster's Students Admission Office.

**Questionnaire for admission to the master's degree programme Mathematics at the
University of Münster**

General personal questions:

Family name:

First name:

Date of birth:

Questions concerning the qualifying degree:

In which subject did you obtain your degree or will you obtain your degree?

Major subject:

Minor subject:

Final grade (or provisional average grade):

University:

Year of graduation:

Specialisation lectures pursued:

Please tick the 3 specialisations you are most interested in from the selection below. Moreover, we ask you to indicate, for each of the chosen specialisations, whether you are confident that you have already acquired the required prerequisites without taking a corresponding course in the broadening module.

Please refer to the following link regarding the required prerequisites and the lectures currently offered for the respective specialisations:

<https://www.uni-muenster.de/FB10/mscmathematics/>

Yes No

Differential Geometry

Geometric Structures

Operator Algebras and Noncommutative Geometry

Topology

Group Theory and Representation Theory

Applied Analysis

Numerics and Scientific Computing

Probability and its Applications

Stochastic Processes

Logic

Number Theory and Arithmetic Geometry
