

## › CiM Gerty Cori Junior Group Symposium

Place: Lecture Hall of the Max Planck Institute for Molecular Biomedicine, Röntgenstraße 20, 48149 Münster

### Wednesday, 2<sup>nd</sup> May 2018

- 09:45 – 10:30      *Noelia Alonso Gonzales (WWU Münster)*  
‘Macrophage plasticity during development and phagocytosis: beyond anti-inflammatory responses’
- 10:30 – 11:15      *Maria Bohnert (Weizmann Institute of Sciences, Israel)*  
‘Quantitative approaches to study the integration of lipid droplets into cellular physiology’
- 11:15 – 12:00      *Snehlata Kumari (University of Cologne)*  
‘Apoptotic and necroptotic signaling pathways control dynamics of inflammatory diseases’

### Thursday, 3<sup>rd</sup> May 2018

- 09:45 – 10:30      *Elisabeth Fischer-Friedrich (TU Dresden)*  
‘Rheology of the Active Cell Cortex in Mitosis’
- 10:30 – 11:15      *Maike Frye (Uppsala University, Sweden)*  
‘Exploring new territories - Matrix stiffness-mediated mechanotransduction in vascular morphogenesis and homeostasis’
- 11:15 – 12:00      *Jen-Hsuan Wei (University of California, San Francisco)*  
‘Golgi-microtubule dynamics during cell division and beyond’
