The *Anthropology Cine Scene Club* welcomes Münster's students, filmmakers, and film enthusiasts to join us to watch films and engage in debates on filmmaking, film-related research, and film consumption. Club members meet regularly for film screenings and discussions about cinema and popular media in relation to anthropology in its widest sense. The range of genres screened encompasses work produced by students and filmmakers from Münster, classic and/or controversial ethnographic films, popular films from around the globe, documentary films, experimental/art films, and many more.

If you would like to show work of your own, or share your knowledge on a specific film or genre, please get in touch with **Dr. Markus Schleiter** (schleiter@uni-muenster.de) or **Dr. Souleymane Diallo** (sdiallo@uni-muenster.de).
