

30 March - 2 April 2020 | Münster University

2nd Münster Evolution Meeting

Present and discuss evolutionary questions across all fields (botany, zoology, microbiology, medicine, philosophy, ...) and levels (from molecules to societies)!

The Münster Evolution Meeting (MEM) provides a forum for all evolutionary biologists working across different fields in Austria, Germany, and Switzerland. Besides the opportunity to share and learn about excellent research in evolutionary biology it also aims at bringing together evolutionary biologists in a smaller setting and at an affordable price (approx. 150 participants, 80 Euros), to allow for intensive networking and discussions. MEMs will in the foreseeable future be held in the off years of the ESEB meetings.

See you in Münster in 2020!
Katja Nowick and Jürgen Gadau

Confirmed speakers

Detlev Arendt	Joachim T. Haug
Nicholas Barton	Adamandia Kapopoulou
Benjamin Bomfleur	Hans Kerp
Juliette de Meaux	Barbara König
Susanne Dobler	Fyodor Kondrashov
Wolfgang Enard	Martin Kuhlilm
Heike Feldhaar	Camila Mazzoni
Thomas Flatt	Axel Meyer
David Garfield	Bernhard Misof
Michael Grünstäudl	Kai Müller
	Marlis Reich
	Walter Salzburger
	Christian Schlötterer
	Anja Widdig

Public evening lecture by

Mark Stoneking (MPI for Evolutionary Anthropology)

Organizers

Jürgen Gadau (Münster University)
Katja Nowick (Freie Universität Berlin)

Registration and abstract submission now open!
