

4th - 6th October 2018 | University of Münster

*Deadline for abstract submission
extended to 14th May*

1st Münster Evolution Meeting

Present and discuss evolutionary questions across all fields (Botany, Zoology, Microbiology, Medicine, Philosophy, ...) and levels (from molecules to societies)!

The Münster Evolution Meeting (MEM) wants to provide a forum for all Evolutionary Biologists working across different fields. Besides having the opportunity to share and learn about excellent research in evolutionary biology MEM also aims at bringing together Evolutionary Biologists working in German-speaking countries in a smaller setting, to allow for intensive networking and discussion. Münster is a welcoming and vibrant university town, offering a perfect venue. It was the home of Prof. Dr. Bernhard Rensch, who contributed significantly to the “Modern Evolutionary Synthesis”.
