

13 - 16 March 2023

2nd Münster Evolution Meeting

Present and discuss evolutionary questions across all fields (Botany, Zoology, Microbiology, Medicine, Philosophy, ...) and levels (from molecules to societies)!

The Münster Evolution Meeting (MEM) wants to provide a forum for all Evolutionary Biologists working across different fields. Besides having the opportunity to share and learn about excellent research in evolutionary biology MEM also aims at bringing together Evolutionary Biologists working in German-speaking countries in a smaller setting, to allow for intensive networking and discussion. Münster is a welcoming and vibrant university town, offering a perfect venue. It was the home of Prof. Dr. Bernhard Rensch, who contributed significantly to the “Modern Evolutionary Synthesis”.

Confirmed speakers

Prof. Dr. Nicholas Barton	Dr. Martin Kuhlwil
Prof. Dr. Susanne Dobler	Dr. Camila Mazzoni
Prof. Dr. Wolfgang Enard	Prof. Dr. Axel Meyer
Prof. Dr. Heike Feldhaar	Dr. Marlis Reich
Prof. Dr. Joachim T Haug	Prof. Dr. Christian Schlötterer
Dr. Michael Heide	Prof. Dr. Mark Stoneking
Dr. Adamandia Kapopoulou	Dr. Hildegrad Uecker
Prof. Dr. Hans Kerp	Prof. Dr. Anja Widdig
Prof. Dr. Barbara König	Prof. Dr. Meike Wittmann

Local organizers

Institute for Evolution and Biodiversity
Münster Graduate School of Evolution

Chair

Prof. Dr. Jürgen Gadau

Co-organizers

Prof. Dr. Katja Nowick
Dr. Pete Czappon
