

MGSE Workshop

More than meets the eye: The role of cryptic genetic variation in the evolution of novel phenotypes

1st June 2017, Münster

Lecture hall HHü, Hüfferstr. 1

- 9.00 – 10.00 **Prof. Dr. Ehab Abouheif**, Department of Biology, McGill University, Canada
The role of cryptic genetic variation in the evolution of novel phenotypes – Part I
- 10.00 – 10.30 Coffee break
- 10.30 – 11.30 **Prof. Dr. Ehab Abouheif**, Department of Biology, McGill University, Canada
The role of cryptic genetic variation in the evolution of novel phenotypes – Part II

Seminar room, Hüfferstr. 1a

- 11.30 – 12.30 **Breakout discussion** - theme and question generation for Knowledge Café
- 12.30 – 13.30 Lunch break, e.g., at the canteen at the Aasee
- 13.30 – 17.00 **Knowledge Café**
- 13.30 – 14.15 First discussion round
- 14.15 – 15.00 Second discussion round
- 15.00 – 15.45 Third discussion round
- 15.45 – 16.15 Coffee break
- 16.15 – 17.00 Plenum: Presentation of results
- 17.00 – 18.00 **[Skype] Prof. Dr. Emilie Snell-Rood**, College of Biological Sciences, University of Minnesota, USA
The role of plasticity and behavior in the accumulation and release of cryptic genetic variation
- 18.00 – 18.30 **Final discussion and wrap up**
- 19.00 Dinner at the *Az am See* (please send an email, if you like to join)
