

Basics in Evolution

Summer Semester 2023 | Mondays 17.00–18.15

Social Room at the Institute for Evolution and Biodiversity
Hüfferstr. 1, 48149 Münster

April 17	Wojciech Makalowski Institute of Bioinformatics, WWU History and the pattern of evolution	June 05	Jürgen Schmitz Institute of Experimental Pathology, WWU Genome evolution: transposable elements
April 24	Joachim Kurtz Institute for Evolution and Biodiversity, WWU Variation among individuals and natural selection	June 12	Bharat Ravi Institute for Evolution and Biodiversity, WWU Genome evolution: proteins
May 08	Pete Csuppon Institute for Evolution and Biodiversity, WWU Models of evolution	June 19	Sylvia Kaiser Department of Behavioural Biology, WWU Sexual selection
May 15	Marisol Herrera-Rivero Molecular Neurobiology of Mental Health, UKM Evolution at multiple loci	June 26	Melanie Dammhahn Department of Behavioural Biology, WWU Studying adaptation: evolutionary analysis of form and function
May 22	Jürgen Gadau Institute for Evolution and Biodiversity, WWU Population genetics	July 03	Ulrich Krohs Department of Philosophy, WWU Recapitulation: criticism on evolutionary thinking
