	13	Welcome address
	15	
	13	Keynote lecture: Michael Lynch <i>Arizona State University</i>
	45	Mutation, drift, and the origin of subcellular features
	14	Francesco Catania <i>University of Münster</i>
	45	Are genetic and epigenetic inheritance linked? Lessons from <i>Paramecium</i>
	15	Erich Bornberg-Bauer <i>University of Münster</i>
	15	Emergence of <i>de novo</i> protein coding genes from 'dark genomic matter' - fact or fiction?
	9	Keynote lecture: Leo W. Beukeboom <i>University of Groningen</i>
	15	Evolution of insect sex determination systems
	10	Claudia Fricke <i>University of Münster</i>
	15	Male reproductive ageing is accompanied by a decline in male ability to produce adequate ejaculates
	10	Jürgen Brosius <i>University of Münster</i>
	45	Exaptation: From Darwin to genomes
	15	Keynote lecture: Paula Stockley <i>University of Liverpool</i>
	15	Cryptic diversity explained by sexual selection

7TH ANNUAL SYMPOSIUM

21-22 MARCH 2018

Institute for Evolution and
Biodiversity
Lecture hall HHÜ
