

Public **Lecture series**, 15.04.2015 – 08.07.2015

Evolution across fields

Date	Lecture title	Speaker	Faculty
15.04.2015	Studies on microevolution & adaptation of extraintestinal pathogenic <i>E. coli</i>	Prof. Ulrich Dobrindt	Medicine
22.04.2015	Evolutionary Immunology	Prof. Joachim Kurtz	Biology
29.04.2015	Late Palaeozoic floras – the end or the beginning of an era?	Prof. Hans Kerp	Geosciences
20.05.2015	From the origins of life to challenges in (protein) translation	Dr. Sebastian Leidel	MPI Molecular Biomedicine
03.06.2015	Karl Marx and Friedrich Engels – and Charles Darwin	Prof. Michael Quante	Philosophy
10.06.2015	Stochastic modelling of host-parasite evolution	Prof. Gerold Alsmeyer	Mathematics
17.06.2015	Genomic systems medicine & evolution	Prof. Monika Stoll	Biology
24.06.2015	The modulation of behavioural profiles by the social environment during early phases of life	Prof. Sylvia Kaiser	Biology
01.07.2014	tba	Prof. Erich Bornberg-Bauer	Biology
08.07.2015	Microevolution of bacterial pathogens	PD Alexander Mellmann	Medicine

Wednesdays 09:00 – 10:15

Kavaliershäuschen (Schlossplatz 6), Seminar room on the ground floor
