

Public lecture series of the Münster Graduate School of Evolution

# › The Growth of the Evolutionary Thought

Winter semester 2016/17 | Mondays 16.30 – 17.30

- 
- |                              |   |                              |  |
|------------------------------|---|------------------------------|--|
| <b>October</b><br><b>31</b>  | <b>Ulrich Krohs</b><br>Department of Philosophy, WWU<br><i>The evolution of evolutionary theories</i>   | <b>December</b><br><b>12</b> | <b>Hans Kerp</b><br>Institute of Geology and Palaeontology, WWU<br><i>The evolution of the geological timescale – The concept of time in geosciences</i>             |
| <b>November</b><br><b>7</b>  | <b>Wojciech Makalowski</b><br>Institute of Bioinformatics, WWU<br><i>Intelligent design ideology, should we care?</i>   | <b>January</b><br><b>9</b>   | <b>Benjamin Bomfleur</b><br>Institute of Geology and Palaeontology, WWU<br><i>Palaeoecology</i>  |
| <b>November</b><br><b>14</b> | <b>Gerold Alsmeyer</b><br>Institute of Mathematical Statistics, WWU<br><i>Mathematical foundations of evolutionary theory</i>   | <b>January</b><br><b>16</b>  | <b>Kai Müller</b><br>Institute for Evolution and Biodiversity, WWU<br><i>Evolution and biodiversity of plants</i>  |
| <b>November</b><br><b>21</b> | <b>Sylvia Kaiser</b><br>Department of Behavioural Biology, WWU<br><i>Shaping of behavioural profiles in mammals</i>   | <b>January</b><br><b>23</b>  | <b>Klaus Reinhold</b><br>Department of Evolutionary Biology, University of Bielefeld<br><i>Evolution of sexual differences: Causes and consequences</i>              |
| <b>November</b><br><b>28</b> | <b>Arndt Telschow</b><br>Institute for Evolution and Biodiversity, WWU<br><i>Alternative stable states and critical transitions in eco-evolutionary systems</i>                         | <b>January</b><br><b>30</b>  | <b>Christian Kost</b><br>Department of Ecology and Evolution, University of Osnabrück<br><i>Evolution of metabolic interactions and transitions in individuality</i> |
| <b>December</b><br><b>5</b>  | <b>Erich Bornberg-Bauer</b><br>Institute for Evolution and Biodiversity, WWU<br><i>Evolution by innovation: Is the de novo emergence of coding genes a myth or a mystery - or both?</i> | <b>February</b><br><b>6</b>  | <b>Jürgen Gadau</b><br>Institute for Evolution and Biodiversity, WWU<br><i>The contribution of insects to speciation research</i>                                    |

Lectures are held in the **seminar room (001)** of the **northern Kavaliershäuschen** (Schlossplatz 6) and are followed by an **informal drinks reception**.
