

› Evolutionary Aspects of Allorecognition: From Intraspecific Conflicts to Links with Adaptive Immunity

Monday, 6 July 2015

16.30 **Loriano Ballarin**

University of Padova, IT

“General aspects of allorecognition: Cells, molecules and physiological responses”

17.30 **Baruch Rinkevich**

National Institute of Oceanography, Haifa, IL

“Chimerism - will two walk together except they have agreed? (Amos, 3:3)”

Tuesday, 7 July 2015

16.00 **Louis Du Pasquier**

University of Basel, CH

“Analogies and homologies in the somatic generation of immune repertoires of Metazoa”

Lecture hall HHü, Institute for Evolution and Biodiversity,
Hüfferstr. 1

www.wwu.de/Evolution/mgse/workshop/allorecognition.html

The lectures are open for everyone!
