

## › “Community Network Approach to Ecological Complexity – A Workshop to Identify the “Right” Questions“

Wednesday, 11 March 2015

16.00 **Louis-Félix Bersier** (University of Fribourg, Switzerland)  
*“The exploration of food-web structure: from stochastic to statistical models“*

17.15 **Carlos Melian** (Eawag, Kastanienbaum, Switzerland)  
*“Eco-evolutionary spatial dynamics: Moving from dreams to models“*

Thursday, 12 March 2015

9.00 **Elisa Thébault** (Université Pierre et Marie Curie, Paris, France)  
*“The structure and stability of networks with mutualistic and antagonistic interactions“*

10.30 **Arndt Telschow** (University of Münster, Germany)  
*“Geographic variation and evolutionary stability of plant-pollinator networks“*

11.00 **Michio Kondoh** (Ryukoku University, Kyōto, Japan)  
*“On what shapes the food-web structure: Adaptation- and population dynamics-oriented views“*

Kavaliershäuschen (Schlossplatz 6)  
Seminar room on the ground floor
