

Declarations by the candidate documenting **open-science activities** and **on the consideration of ethical aspects** as part of the doctoral process and disclosure of **personal contribution** for manuscripts completed by two or more authors (cumulative dissertations)

Doctoral candidate:

Title of dissertation:

1. Documentation of **open-science activities**

Manuscript 1

	yes	no	If yes, please specify the source
Pre-registration			
Publication of data			
Publication of analysis scripts			
Publication of materials			
Open access publication			
If applicable, (voluntary) statement as to why open-science activities played little or no role in this study:			

Manuscript 2

	yes	no	If yes, please specify the source
Pre-registration			
Publication of data			
Publication of analysis scripts			
Publication of materials			
Open access publication			
If applicable, (voluntary) statement as to why open-science activities played little or no role in this study:			

Manuscript 3

	yes	no	If yes, please specify the source
Pre-registration			
Publication of data			
Publication of analysis scripts			
Publication of materials			
Open access publication			
If applicable, (voluntary) statement as to why open science activities played little or no role in this study:			

2. Declaration on the consideration of ethical aspects

Study number	Source (manuscript / chapter of dissertation): e.g. study 1 in paper 2, study 1 described in chapter 4	Was the study reviewed by an ethics commission?	
		yes	no
If applicable, (voluntary) statement describing how ethical aspects were considered in planning and conducting the studies:			

3. Declaration of one's personal contribution to the submitted academic manuscripts by two or more authors

Manuscript 1
