

WWU
MÜNSTER

inch by inch

the WWU Global Community Garden

How can you gain ground when you're far away from your roots? Try touching local soil and planting something – together with others, of course!

The Graduate Centre is renting a small garden plot in a local organic farm. We'll select 5-8 reliable PhDs and postdocs from all over the world to share the responsibility for the garden as well as the harvest.

Eager to join? Questions? Drop us a line!
