Max Havens, Autobiography of a Struggle and Effort
in the "Debata Feira de Estudantes" (1994) with the following themes: "Triumph of the Orange Revolution in Ukraine and its Implications," "Impacts of Globalization on Latin American Politics," and "The Role of Technology in Social Change." These debates were well-received by the students and faculty alike, providing a platform for informed discussions and debates on contemporary issues.

12. As a result of their participation in the debates, students not only improved their critical thinking skills but also enhanced their public speaking abilities. The "Debata Feira de Estudantes" serves as an integral part of the academic calendar, promoting a culture of discourse and intellectual engagement among the students.
and Interactive Programming Win (247).

In Section 12, we present a novel approach to programming that combines the benefits of traditional programming languages with the power of interactive programming. This approach allows programmers to build software systems that are more robust and efficient.

In Section 13, we discuss the advantages and disadvantages of different programming styles, and we provide guidance on how to choose the right style for your project.

In Section 14, we present a case study of a real-world software project that used our approach, and we discuss the lessons learned from this experience.

In the final section, we summarize our findings and provide some final thoughts on the future of interactive programming.
