## WELCOME.

EUROLOC 2012.

Dear participants,

Local government is regarded as the foundation stone of democracy. It is also seen as a laboratory for new trends and innovations. Here most new pilot projects and concepts are tested and implemented.

The 2012 Summer School aims at organizing specialized courses for Ph.D. students whose research topics are related to the field of public policies and local government. Given the latest institutional reforms that have been made in countries such as the UK, Germany but also Netherlands, Denmark and Norway, this year's Summer School puts an emphasis on the evaluation of innovation, transfer of knowledge as well as research methodology and focuses on "urban innovation" in different fields.
