

# Kolloquium des Institutes für Landschaftsökologie WS 16/17

*Dienstags 18 Uhr c.t.*  
Hörsaal Heisenbergstr. 2

25.10.2016	<i>Dr. Jens Oldeland</i> Universität Hamburg	Remote Sensing of Biodiversity - opportunities and challenges
08.11.2016	<i>Prof. Dr. Neng-Huei Lin,</i> National Central University, Taiwan	Overview of Chemical, Physical, Optical and Radiative Measurements of Biomass-burning Aerosol and related pollutants during the Seven South East Asian Studies Spring Campaigns
22.11.2016	<i>Prof. Dr. Jan Habel,</i> TU München	The relevance of time-series in conservation biology
06.12.2016	<i>Dr. Tessa Camenzind,</i> FU Berlin	Hidden processes with large impacts: Soil microbial communities in tropical forests and their relation to nutrient dynamics and tree growth in a changing world
20.12.2016	<i>Matthias Harnisch,</i> Stadt Riedstadt	Introducing a little wilderness to bourgeois housing areas or: Re-designing urban green with site-specific seed-mixtures - biodiversity, costs, acceptance
10.01.2017	<i>Prof. Dr. Markus Reichstein,</i> Max-Planck-Institut für Biogeochemie, Jena	Towards global data-driven earth system science for improving climate and earth system modelling
24.01.2017	<i>Prof. Dr. Alexander Wezel</i> ISARA Lyon	Result-oriented agri-environment measures for mountain grasslands and cropland in drinking water catchments - Potentials, constraints and farmers perceptions

Die Vorträge sind öffentlich. Um rege Teilnahme, insbesondere auch durch Studierende, wird gebeten. Die Veranstaltungen sind im Studiengang MSc Lök, Modul M2/M1, anrechenbar. Ansprechpartner und Organisation: Dr. Friederike Gabel
