

OCC Lecture WiSe 2022/23

Location: Institute of Psychology, Fliednerstraße 21,
48149 Münster, Lecture Hall 119
Time: Wednesday, 16.15 h

Date	Lecturer	Title
16.11.22	Prof. Dr. Thomas Budde Institute of Physiology I	Thalamic ion channels in health and disease
23.11.22	Prof. Dr. Markus Junghöfer Institute for Biomagnetism and Biosignalanalysis	Testing the functions of the vmPFC on emotional processes through non-inversive brain stimulation
07.12.22	PD Dr. Marc de Lussanet Institute of Sport and Exercise Sciences	Computed MyoGraphy (CMG): a case of science transfer
14.12.22	Dr. Christian Wolf Institute of Psychology	Cognitive contributions to eye movement control
21.12.22	Dr. Torge Dellert Institute of Medical Psychology and Systems Neuroscience	Isolating neural correlates of consciousness – Insights from EEG and fMRI during visual and auditory perception
11.01.23	Prof. Dr. Christian Klämbt Institute of Neuro- and Behavioral Biology	Differentiation of glial cells and their impact on behavior
18.01.23	Dr. Bruno Pradier Translational Research Imaging Center	Sex differences in processing of mechanosensory stimuli and pain in rodents
25.01.23	Prof. Dr. Carsten Wolters Institute for Biomagnetism and Biosignalanalysis	Targeted and intensity-optimized multi-channel transcranial electric stimulation: New methods and first applications to the human somatosensory system
