

## OCC Lecture WS 2020/2021

**Location:** Online Zoom Meeting

**Time:** Wednesday, 16.15 h

Date	Lecturer	Title
04.11.20	<i>OCC Neuroscience Colloquium</i>	<i>OCC Neuroscience Colloquium</i>
11.11.20	PD Dr. Dieter Kutz Institute of Sport and Exercise Sciences	Motor learning and the cerebellum: Notes from clinical experiments
18.11.20	Dr. Vikotria Krakenberg Department of Behavioural Biology	Is the glass half full or half empty? How genetic and environmental factors influence cognitive judgement bias in mice
25.11.20	<i>OCC Neuroscience Colloquium</i>	<i>OCC Neuroscience Colloquium</i>
02.12.20	Prof. Dr. Dr. Bettina Pfliederer Translational research Imaging center of the Clinic for Radiology	Translational Radiology Research - moving beyond BOLD contrasts of the brain!
09.12.20	Prof. Dr. Carsten Wolters Institute for Biomagnetism and Biosignalanalysis	Use of EEG and MEG in presurgical epilepsy diagnosis
16.12.20	<i>OCC Neuroscience Colloquium</i>	<i>OCC Neuroscience Colloquium</i>
13.01.21	Dr. Christan Wolf Institute of Psychology	High-level and low-level contributions to eye movement control
20.01.21	Dr. Marc de Lussanet Institute of Sport and Exercise Sciences	What are the folds in our brain for? Models and hypotheses of scaling and growth.
27.01.21	<i>OCC Neuroscience Colloquium</i>	<i>OCC Neuroscience Colloquium</i>
03.02.21	Dr. Bruno Pradier Translational Research Imaging Center	Central Processing of Pain: Nociception vs. Hyperalgesia
