

Universität Münster

Otto Creutzfeldt Center

Neuroscience Colloquium & OCC Lecture WiSe 2026-27

Location: Institute of Psychology, **Lecture Hall Fl 40, Fliednerstraße 21**
Time: Wednesday, 2:15 p.m.

DATE/ROOM	TITEL	LECTURER	HOST
04.11.2026	OCC PhD Program: Networking and Exchange Session	--	
11.11.2026 **FL39**	Mapping the aging brain using MEG: lifespan dynamics of neural activity	Dr. Christina Stier	
18.11.2026	Functional connectivity patterns of 80 plus-year-olds with different cognitive statuses, including mild cognitive impairment	Dr. Jessica Coenen	
23.11.2026 Monday 2:00 p.m. Lec. Hall, HHü, Hüfferstr. 1	Gene-environment correlations during cycles of experience-dependent plasticity shape human individuality, **Joint Event with JICE**	Prof. Dr. Ulman Lindenberger, MPI for Human Development	Prof. Dr. Claudia Voelcker-Rehage
25.11.2026 **FL 39**	From Perception to Adaptation: Measuring and Supporting Human State in Immersive Environments	Dr. Susana Castillo Alejandre, TU Braunschweig	Taravat Anvari
02.12.2026	Investigating the predictive brain - a multimodal perspective	Dr. Insa Schlossmacher	
09.12.2026	Morphological asymmetries and contralateral brain organization: an interdisciplinary approach	PD Dr. Marc de Lussanet	
16.12.2026 **FL 39**	Generation and generalization mechanisms of Spike and Wave Discharges - The role of cortical 5-9 Hz oscillations and their relevance for seizure prediction	Dr. Annika Lüttjohann	
13.01.2027	TBA	Prof. Dr. Catherine Tallon-Baudry, CNRS, PSL University Paris, France	Teresa Berther
20.01.2027 **FL 39**	How Motivation Shapes Gaze Behavior and Perception	Dr. Christian Wolf	
27.01.2027	TBA	Dr. Elena Groneberg	
02.02.2027 **Aula, Schlossplatz 2** **Abendvortrag**	Die Dynamik des Verhaltens – Wie sich die Sicht auf die Ontogenese von Tier und Mensch verändert hat	Prof. Dr. Norbert Sachser	OCC 20th anniversary
