

Neuroscience Colloquium Münster

Location/Time:

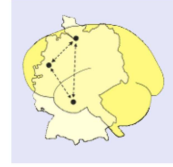

Hörsaal Institut für Physiologie I
Robert-Koch-Str. 27a, (Innenhof)
17.00 s.t.

Date	Title	Lecturer	Host
23.11.11	Neuropeptides and the social brain: neurobiological mechanisms and clinical implications of oxytocin and vasopressin in humans	Prof. Dr. Markus Heinrichs Freiburg i. Br.	Prof. Dr. Hans-Christian Pape Institut für Physiologie I Münster
18.01.12	Fragmented perception and motor control	Prof. Dr. Jeroen Smeets Niederlande	Dr. Marc de Lussanet Institut für Psychologie II Münster
22.02.12	A mechanism-based approach to mental disorders: The role of learning and memory	Prof. Dr. Herta Flor Mannheim	Prof. Dr. Hans-Christian Pape Institut für Physiologie I Münster
07.03.12	Neuronale Korrelate Musik-evozierter Emotionen	Prof. Dr. Stefan Koelsch Berlin	Prof. Dr. Christo Pantev Institut für Biomagnetismus und Biosignalanalyse Münster
19.03.12	Multisensory mechanisms of bodily self-consciousness	Prof. Dr. Olaf Blanke Lausanne	Prof. Dr. Markus Lappe Institut für Psychologie II Münster
18.04.12	From Neurophysiology to Behaviour: Exploring the Functions of the Extended Hippocampal Formation	Prof. Dr. Shane O'Mara Dublin	Dr. Thomas Seidenbecher Institut für Physiologie I Münster
02.05.12	Mood regulation by the hypothalamus: functions of oxytocin projections to the amygdala	PD Dr. Ron Stoop Lausanne	Prof. Dr. Hans-Christian Pape Institut für Physiologie I Münster
06.06.12	The Artist as Neuroscientist	Prof. Patrick Cavanagh Paris	Prof. Dr. Markus Lappe Institut für Psychologie II Münster
20.06.12	Intelligence without Cortex: The Convergent Evolution of Avian and Mammalian Forebrains	Prof. Dr. Onur Güntürkün Bochum	Prof. Dr. Norbert Sachser Institut für Neuro- und Verhaltensbiologie Münster
