

Program

7th Chembion Symposium

February 26, 2026

PharmaCampus

Corrensstraße 48, 48149 Münster

9:00 Opening words

9:15 *Fiat Lux! Using chemistry to illuminate cellular physiology*

Prof. Dr. Evan Miller

University of California, Berkeley, US

10:15 Coffee Break

10:45 *Addressing ion channel targets in preclinical pharmaceutical research*

Dr. Nadia Lybøl von Schoubye

Boehringer Ingelheim, Biberach, Germany

11:45 Lunch Break

Mensa am Ring, Domagkstraße 61, 48149 Münster

13:15 *KCNQ-related disorders: from genotype-phenotype correlations to novel pharmacological approaches*

Prof. Dr. Maurizio Tagliatela

University of Naples Federico II, Naples, Italy

14:15 Poster session

PhD students and Postdocs of Chembion, and associated research groups

15:45 Coffee Break

16:15 *Voltage-gated ion channel activation and gating: insights from a family-wide molecular dynamics investigation*

Prof. Dr. Lucie Delemotte

KTH Royal Institute of Technology, Stockholm, Sweden

17:15 Announcement of Poster Awards and Closing Words
