Acta Journals' Outstanding Reviewers in 2019

Peer review is a cornerstone of science, and Elsevier and Acta Materialia, Inc. are dedicated to supporting and recognizing the journals' reviewers. The Acta Journals are delighted to announce the recipients of the 2020 Outstanding Reviewer awards for excellence in reviewing in 2019, as selected by the Editors of Acta Materialia, Scripta Materialia, Acta Biomaterialia and Materialia. Each recipient receives a certificate and is offered an honorarium as thanks for their support of the titles, and for their help in ensuring the continued high quality of the journals.

Acta Materialia and Scripta Materialia

Fadi Abdeljawad, Clemson University, USA
 Hamidreza Abdolvand, Western University, Canada
 Graeme Ackland, University of Edinburgh, UK
 Eiji Akiyama, Tohoku University, Japan
 Karsten Albe, TU - Darmstat, Germany
 Dor Amram, Massachusetts Institute of Technology, USA
 Ke An, Oak Ridge National Laboratory, USA
 Xianghai An, The University of Sydney, Australia
 Raymundo Arroyave, Texas A&M University, USA
 Nagamani Jaya Balila, Indian Institute of Technology (Bombay), India
 Afroz Barnoush, Norwegian University of Science and Technology, Norway
 Indranil Basu, ETH Zurich, Switzerland
 Florian Baur, Münster University of Applied Sciences, Germany
 Pascal Bellon, University of Illinois at Urbana-Champaign, USA
 Amine Benzerga, Texas A&M University, USA
 Mattia Biesuz, University of Trento, Italy
 Carl Boehlert, Michigan State University, USA
 Manon Bonvalet-Rolland, KTH - Royal Institute of Technology, Sweden
 Brad Boyce, Sandia National Laboratories, USA
 Ben Breitung, Karlsruhe Institute of Technology, Germany
 Sandrine Brochard, Université de Poitiers, France
 Roman Burkovsky, Peter the Great Saint-Petersburg Polytechnic University, Russia
 Francisca G. Caballero, Spanish National Center for Metallurgical Research (CENIM-CSIC), Spain
 Carola Celada-Casero, Tata Steel R&D and Delft University of Technology, The Netherlands
 Carmen M. Cepeda, IMDEA Materials Institute, Spain
 Rachman Chaim, Technion-Israel Institute of Technology, Israel
 Volodymyr Chernenko, BCMaterials & University of Basque Country (UPV/EHU), Spain
 Bai Cui, University of Nebraska-Lincoln, USA
 William Curtin, Multiscale Mechanics Modeling, Lausanne, Switzerland
 Brian DeCost, National Institute of Standards and Technology (NIST), USA
 Nora Dempsey, Institut Néel CNRS, France
 Eric Detsi, University of Pennsylvania, USA
 Joachim Deubener, Clausthal University of Technology, Germany
 Shen Dillon, University of Illinois at Urbana Champaign, USA
Sergiy Divinski, Universität Münster, Germany
 Osman El-Atwani, Los Alamos National Laboratory, USA
 Jeffrey Eldridge, NASA Glenn Research Center, USA
 Xavier Feaugas, Université La Rochelle, France

Richard Floyd, Jr., Pennsylvania State University, USA
 Jan Frenzel, Ruhr University Bochum, Germany
 Takashi Fukuda, Osaka University, Japan
 Alexander Gabay, University of Delaware, USA
 Huajian Gao, Nanyang Technological University, Singapore
 William Gerberich, University of Minnesota, USA
 Maryam Ghazisaeidi, The Ohio State University, USA
 Bernd Gludovatz, UNSW Sydney, Australia
 Blazej Grabowski, University of Stuttgart, Germany
 Salvatore Grasso, Southwest Jiaotong University, China
 Ivan Gutierrez-Urrutia, National Institute for Materials Science, Japan
 Weizhong Han, Xi'an Jiaotong University, China
 Jeongho Han, Hanyang University, Korea
 Dugan Hayes, University of Rhode Island, USA
 David Henann, Brown University, USA
 Johan P.M. Hoefnagels, Eindhoven University of Technology, The Netherlands
 Johannes Hoetzer, Karlsruhe Institute of Technology, Germany
 Eric Homer, Brigham Young University, USA
 Jeff Hoyt, McMaster University, Canada
 Qiaodan Hu, Shanghai Jiao Tong University, China
 Mingxin Huang, University of Hong Kong, China
 Chongxiang Huang, Sichuan University, China
 Ryan Jacobs, University of Wisconsin - Madison, USA
 Michelle Jamer, United States Naval Academy, Annapolis, USA
 Jae-il Jang, Hanyang University, Korea
 Vikram Jayaram, Indian Institute of Science, India
 Mark Jhon, A*STAR, Singapore
 Oliver Johnson, Brigham Young University, USA
 Eric Jordan, University of Connecticut, USA
 Wayne D. Kaplan, Technion-Israel Institute of Technology, Israel
 Ibrahim Karaman, Texas A&M University, USA
 Christoph Kirchlechner, Karlsruhe Institute of Technology (KIT), Germany
 Kevin M. Knowles, University of Cambridge, U.K.
 Fritz Körmann, Max-Planck-Institut für Eisenforschung GmbH, Germany
 Jurij Koruza, TU Darmstadt, Germany
 Charlotte Kramer, Sandia National Laboratories, USA
 Carl Krill, Ulm University, Germany
 Pavel Lejcek, Institute of Physics, AS CR, Czechia
 Yanjun Li, Norwegian University of Science and Technology, Norway
 Peter Liaw, University of Tennessee, USA
 Jan Philipp Liebig, Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU), Germany
 Junpin Lin, University of Science and Technology Beijing, China
 Jian Liu, Ningbo Institute of Materials Technology & Engineering, China
 Javier Llorca, Polytechnic University of Madrid & IMDEA Materials Institute, Spain
 Pol Lloveras, Universitat Politècnica de Catalunya, Spain
 Haiwen Luo, University of Science and Technology, Beijing, China
 Xiu-Liang Ma, Institute of Metal Research, Shenyang, China
 Robert Maass, University of Illinois at Urbana-Champaign, USA
 Reza Mahjoub, University of South Australia, Australia
 Francesco Maresca, University of Groningen, The Netherlands
 May L. Martin, National Institute of Standards and Technology (NIST), USA
 Jeremy K. Mason, University of California, Davis, USA

(continued on next page)

- Neil D. Mathur, University of Cambridge, U.K.
Daniel Miracle, Air Force Research Laboratory, USA
Yuri Mishin, George Mason University, USA
Rajiv S. Mishra, University of North Texas, USA
Nele Moelans, KU Leuven, Belgium
Dirk Mohr, ETH, Switzerland
Haël Mughrabi, FAU Erlangen-Nürnberg, Germany
Yasukazu Murakami, Kyushu University, Japan
Nobuo Nakada, Tokyo Institute of Technology, Japan
Hajime Nakamura, Hajime Nakamura, Shin-Etsu Chemical, Magnetic Materials Research Center, Japan
Alfonso Ngan, University of Hong Kong, China
Wolfram Nöhring, University of Freiburg, Germany
Pavan Nukala, University of Groningen, The Netherlands
Vasek Ocelik, University of Groningen, The Netherlands
Mojca Otoničar, Josef Stefan Institute, Slovenia
K. A. Padmanabhan, Anna University, India
Valerie Paul-Boncour, Centre National de la Recherche Scientifique, France
Vitalij Pecharsky, Ames Laboratory, USA
Elias Penilla, University of California, San Diego, USA
John Perepezko, University of Wisconsin-Madison, USA
Roumen Hristov Petrov, Ghent University, Belgium and Delft University of Technology, Netherlands
André Phillion, McMaster University, Canada
Reinhard Pippan, Erich Schmid Institute of Materials Science, Austria
Stefan Pogatscher, Montanuniversität Leoben, Austria
João Quinta da Fonseca, The University of Manchester, U.K.
Dierk Raabe, Max-Planck-Institut für Eisenforschung, Germany
Catherine Rae, Cambridge University, U.K.
Lakshmi Narayan Ramasubramanian, Indian Institute of Technology, New Delhi, India
Jiancun Rao, University of Maryland, USA
Vsevolod I. Razumovskiy, Materials Center Leoben Forschung GmbH (MCL), Leoben, Austria
Oliver Renk, Montanuniversität Leoben, Austria
Diego Ribas Gomes, University of Groningen, The Netherlands
Timothy Rupert, University of California, Irvine, USA
Paul Salvador, Carnegie Mellon University, USA
Rohini Sankaran, Lawrence Livermore National Laboratory (LLNL), USA
Taisuke Sasaki, National Institute for Materials Science, Japan
Daniel Schliephake, Karlsruhe Institute of Technology (KIT), Germany
Jan Schroers, Yale University, USA
Michael Schütze, DECHEMA-Forschungsinstitut, Frankfurt, Germany
Colin Scott, CanmetMATERIALS, Canada
Hüseyin Sehitoglu, University of Illinois at Urbana-Champaign, USA
Vincenzo M. Sglavo, University of Trento, Italy
Chen-Wei Shao, Institute of Metal Research, Shenyang, China
Dilson Silva dos Santos, Federal University of Rio de Janeiro, Brasil
Raj N. Singh, Oklahoma State University, USA
Petr Sittner, Institute of Physics of the CAS, Prague, Czech Republic
Mojmir Sob, Masaryk University, Czechia
Seok Su Sohn, Korea University, Korea
Douglas Spearot, University of Florida, USA
Niyanth Sridharan, Oak Ridge National Laboratory, USA
Nikki Stanford, University of South Australia, Australia
Hadas Sternlicht, Brown University, USA
Boris Straumal, Institute of Solid State Physics, Chernogolovka, Russian Federation
Bob Svendsen, RWTH Aachen University, Max-Planck-Institut für Eisenforschung GmbH, Germany
Masayuki Takashiri, Tokai University, Japan
Koshi Takenaka, Nagoya University, Japan
Veena Tikare, Sandia National Laboratories, USA
Michael Tonks, University of Florida, USA
Damien Tourret, IMDEA Materials Institute, Spain
Kaneaki Tsuzaki, Kyushu University, Japan
Blas Pedro Uberuaga, Los Alamos National Laboratory, USA
Céline Varvenne, CNRS / Aix-Marseille Université, France
Gregory Wagner, Northwestern University, USA
Ke Wang, Tsinghua University, China
Yi Wang, Northwestern Polytechnical University, China
Yandong Wang, University of Science and Technology, Beijing, China
Jörg Weissmueller, Hamburg University of Technology, Germany
Gerhard Wilde, Universität Münster, Germany
Angus Wilkinson, Oxford University, U.K.
Charles Wojnar, Lawrence Livermore National Laboratory, USA
Jiagang Wu, Sichuan University, China
Kenong Xia, University of Melbourne, Australia
Yunchang Xin, Chongqing University, China
Shoumei Xiong, Tsinghua University, China
Chao Xu, Harbin Institute of Technology, China
Xiaoou Yi, University of Science and Technology Beijing, China
Shujun Zhang, University of Wollongong, Australia
Wenzheng Zhang, Tsinghua University, China
Steven J. Zinkle, University of Tennessee, Knoxville and Oak Ridge National Laboratory, USA
Yu Zou, University of Toronto, Canada
Ruzhong Zuo, Hefei University of Technology, China
