

The LIRLAP 2021 conference will be held on [Zoom](#).

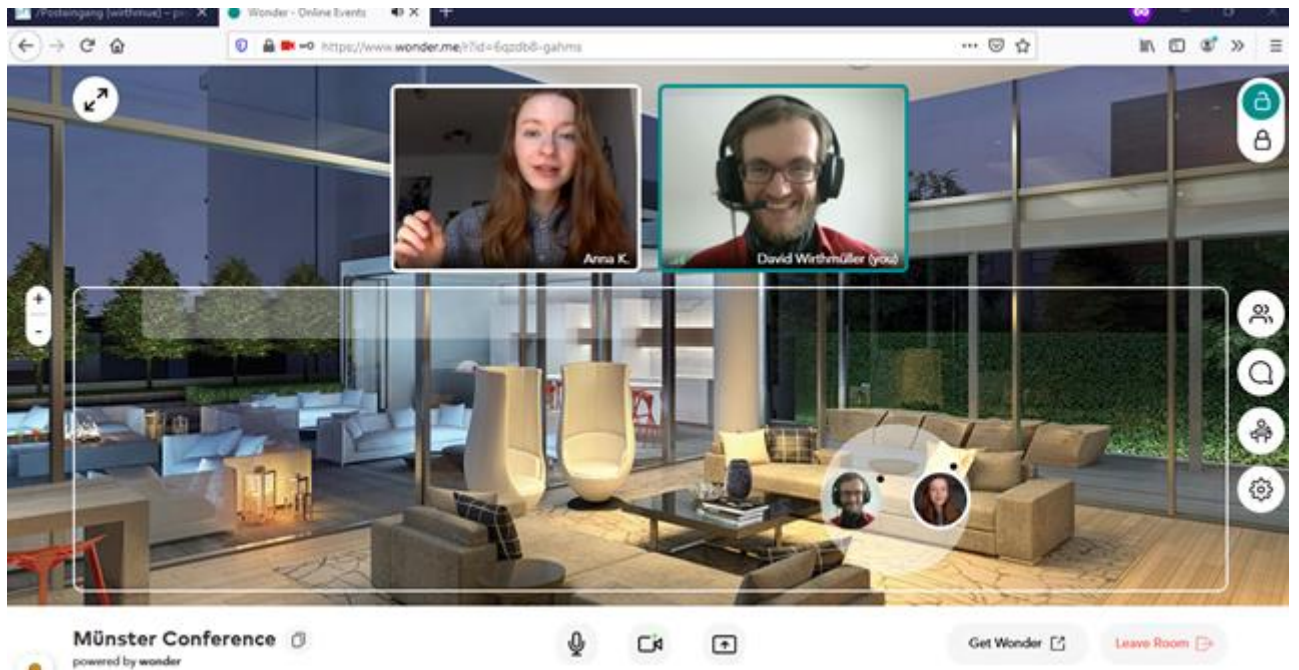

After you register for our conference [here](#), you will receive an e-mail with the Zoom-Meeting links and passwords. If you have not received a confirmation e-mail with the log-in details, please contact David Wirthmüller (lirlap2021@uni-muenster.de).

For coffee breaks and social events, we will be using [Wonder](#), an online service created to improve socializing and networking during uncertain pandemic times. Wonder can be run simultaneously with Zoom; you only need to mute yourself on the platform you are not currently using. When you first log in, you will be asked to upload or take a picture of yourself. Then you should see a similar view (see the picture 1).

picture 1: moving around in wonder

The icon with your image inside is your avatar which can be moved around the virtual space. As soon as you move close enough to another person (avatar), you will see a circle around your two avatars. Wonder will automatically open a “breakout room” for your and other conference guests who will be close to your circle (see the picture below).

picture 2: conversations via wonder

If you happen to have any issues or questions during the conference, move to the “I need help” space during the coffee breaks on Wonder, send a chat message to David or Anna on Zoom during the Zoom-sessions, or contact David or Anna via WhatsApp. The organizers’ mobile phone numbers will be provided in the registration confirmation e-mail (for urgent problems only).
