Cluster of Excellence "Religion and Politics"

A workshop of the Cluster of Excellence "Religion and Politics" of the University of Münster. Some 200 academics from more than 20 disciplines in the humanities and social sciences and from around 14 countries deal with the relationship of religion and politics across epochs and cultures: from the world of ancient gods and Judaism, Christianity and Islam in the Middle Ages and the Early Modern Period to the current situation in Europe, America, Asia, and Africa. It is nationally the largest research association of its kind and of the 43 Clusters of Excellence in Germany, it is the only one to deal with religion. The German Federal Government and the Federal States support the project with 40.1 million euros in the Excellence Initiative's second funding phase from 2012 to 2018.

## › Gender – Religion – Nation

The interconnecting platform “Religion, Politics and Gender Relations” at the University of Muenster’s Cluster of Excellence on “Religion and Politics in Pre-Modern and Modern Cultures” invites scholars to participate in the workshop on “Gender – Religion – Nation. Perspectives from Russia, France and Germany”.

Recent social and political conflicts in various European societies are characterized by entanglements between ‘nation’ and ‘gender’, ‘nation’ and ‘religion’, and ‘religion’

and ‘gender’ in their respective intersections. These conflicts mirror a struggle for collective identities, conflicts over ideals and goals of society and reflect the complex relation between politics and religion. Three panels will offer the opportunity to discuss and compare perspectives on gender, religion and nation in Russian, French and German contexts.
