What is Language Learning in Tandem?

*“Learning a foreign language in Tandem means that **two people with different native languages** meet on a regular basis. While **supporting each other**, the aim **can be to improve and refresh one's own foreign language competences** and skills and/or to learn more about the target language's culture, the partner's cultural background etc.”*

Speakdating

Speakdating allows you to talk to each other in different languages outside a classroom. The concept of *Speakdating* is very simple. You talk to different people (possibly in different languages) within two hours.

The event will take place once a month in a café/pub in the city centre. You can find an overview of dates and times on Moodle.

Nightline Münster e.V.

We are the Nightline Münster, a telephone service from students for students. We offer students seeking help the opportunity to speak to students working on a voluntary basis from 9pm to 1am on Sundays to Fridays. Students can share worries of all kinds with us anonymously and confidentially; we listen actively, do not judge and provide emotional relief. We offer a low-threshold service and refer specific questions to specialised staff. We can be an important point of contact for students, especially if they have not yet built a social network or do not want to talk about personal problems with anyone they know.
