Venue

To join the meeting to our workshop, simply click on the link provided by mail and follow the pop-up instructions.

In this meeting, only the *Data Talks* event integrated in the workshop will be recorded. Do not worry; we will inform you beforehand, so that you can turn-off your camera and microphone.

Presenters and discussants:

We ask you kindly to join your meeting five minutes in advance to test if everything functions just fine. In particular, test whether your audio, microphone, and camera operate as expected. You can share your presentation slides with the audience by clicking on the "Share Screen" button and selecting your presentation file. The organisation team will be present and available for technical support at all times.

Tip: To reduce bandwidth issues, please close all unneeded applications on your computer and disable the HD setting of your webcam.

Wonder.me is a great tool to do networking. To join this platform on our coffee breaks, click on the provided link in the chat. Please note that wonder.me does not work on Safari or on mobile devices, use only the Chrome or Firefox Browser on your computer. Once you clicked on the link, just as the zoom platform, just follow the pop-up instructions.

You can use your picture as your avatar, which can be seen by the other participants during the networking session. To move around the room, click and hold your cursor and join a conversation by moving closer to a person or to a different group by placing yourself in the "circle". Once you get close to another participant or a group, the platform starts a video conversation. To leave a conversation, move your cursor away from the person or group you are chatting with, or simply click on "leave conversation", the button available during the video conversation.
